Walk-In Center

56 Jesse Hill Jr. Drive SE Atlanta, Georgia 30303 | (404) 616-6661 | Monday - Friday; 8 a.m. - 8 p.m.

Grady's Walk-In Center offers extended hours and limited on-site laboratory and radiology services, to appropriately diagnose, treat, and manage your acute medical conditions and minor traumas when your primary care physician is unavailable and when you don't need emergency medical care.

Since we do not accept appointments, your wait will depend on the number of patients and the severity of their injuries or illnesses. You will be seen as soon as possible. We will also keep you informed in the event of any delays during your visit.

Our Walk-in Center is equipped to treat minor illness or injury only. If your condition is serious, a visit to the Emergency Room may be the best choice in seeking treatment. In a medical emergency, dial 911 for immediate assistance.

Please bring identification, current insurance card - if you have one, and a current medication list. We accept Medicaid, Medicare and most private insurance. This facility uses Midlevel Providers.
