

# Maison du Parc - A welcoming place and the Head office of the Park

Located in the middle of the forest, this C16th house is a privileged welcome point for our visitors.

Open all year round, the staff of the tourist office are at your service for all tourist information. A permanent exhibition presents the territory of the Park and the actions undertaken.

## Exhibitions

The permanent and temporary exhibitions

- On the ground floor, an evocation of the park's natural heritage is presented through three themes: the land, water and the forest. They are illustrated by the human activities associated with them: the exploitation of iron ore, green moulding sand, chalk and clay for the land; ponds, irrigation, drainage and log floating for water; forestry, the use of wood, the habitat and cut lime trees from the forest.
- on the first floor, the present, characterized by the important developments that have marked the territory, is illustrated by the actions undertaken by the regional nature Park.

- temporary exhibitions (painting, photos, sculptures)

complete this presentation of the Forêt d'Orient Regional Nature Park.

## Location

On the road separating Lake Orient and Lake Temple, at the junction of Road D79 and D43, the "Maison du Parc" is 6 km/ 4miles away from Géraudot and 6km/4Miles from Mesnil-St-Père.
