Presentation

This church, has remained modest and rustic, and is dedicated to my assumption. But the sculptor from the end of the C13th or the beginning of the C14th that made me so monumental, preferred, probably at the demand of the clergy and the inhabitants of this pleasant village, to depict me in the form of Mary the queen, I am wearing a crown decorated with precious

stones, and the virgin mother. I am very «Gothic». The elegant movement of my right hand that had to hold a bouquet of flowers is very human, and the sweetness of my features makes one think of the statuary of the portal of the cathedral in Reims. Yes, like all mums, my little boy is amusing me by waving his hand behind my veil and with the other pulling on the cord that fastens my vast cloak. A cloak so large that it can contain all the tenderness of the world.
