

Dyfi Osprey Project

Osprey Ecology - Case Studies

Join us
Protect local wildlife

Ospreys are fascinating birds and learning more about them has revealed some remarkable insights into their lives.

Eastenders has nothing on Ostenders!

Monty and Blue 24 on Nest 2 at Cors Dyfi.

In this part of the website we will, over time, write about many of the various aspects of osprey ecology, some of which are only now being understood for the first time. These case studies will be a bit more 'sciency' than normal, but don't let that put you off! Everything is easy to understand.

Put those old text books back on the shelf - a lot of the stuff in them is either far too simplistic or plain wrong!

See the menu, below left, for all the Case Studies..
