Montgomeryshire Wildlife Trust and the Dyfi Osprey Project aim to deliver fun, interesting and informative learning experiences to learners of all ages.

Our curriculum linked learning programme has been developed to make the best of the physical location and amazing natural, cultural and historical resources that are available to us. Our learning programmes can be delivered bilingually.

Our diverse range of activities could have you learning more about the Ospreys or understanding what life would have been like in the area when up to 80 ships a day sailed past the site of the Osprey nest. You could be finding out what Otters have for breakfast or how we impact on the land around us. Whatever you choose as the focus of your visit you will take away memories and learning that will last a lifetime.

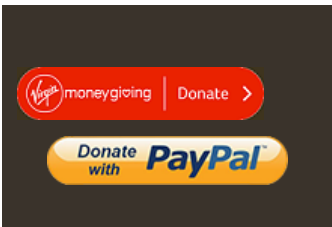

On these pages you will find all the information you need to plan and book your group visit.
