Protect local wildlife

Charcoal

Learn how we make our own charcoal and where you can buy it from

At Gwent Wildlife Trust we run a range of Projects that are run by our staff and funded from external grant giving organisations. Some Projects concern wildlife on our nature reserves and work with volunteers, others extend beyond this network working with landowners who manage their own land for wildlife.

Below is a list of our current Projects and you can find further information by clicking on the links above or from the menu to the left of this screen.

- Shrilla Carder Bee Project
- Water Vole Project
- Charcoal
- Conservation Grazing Project

In-addition we have run Projects where the funding has now ended but we still work with some of the groups involved in these Projects and alot of information can be found on the relevant pages. Please use the menu to the left of the screen to access further information about them.

- Gwent Living Churchyards Project
