Discover & Learn Inspiring the next generation to care for nature

Nature Workshops

Wildlife Watch

ParkLife

Ulster Wildlife is dedicated to encouraging children and young people of all ages to nurture a love and understanding of nature, here on our doorstep in Northern Ireland.

Every year, our fully trained staff engage with thousands of young people, through a variety of different ways:

“

No one will protect what they don't care about, and no one will care about what they have never experienced.

- **Outreach nature workshops:** on topics such as feeding the birds and creating homes for wildlife.
- **Wildlife Watch:** our leading kids' nature club. Children and young people can become members or join one of our local Wildlife Watch Groups.
- **ParkLife education programme:** a partnership project with Belfast City Council to help children and their families explore nature in Belfast's parks through monthly Saturday Clubs, school visits and events.

**Sir David
Attenborough, President
Emeritus, The
Wildlife Trusts**

Jobs

No current vacancies.
