In our restaurant ""Akrogiali"" you will find fresh seafood arriving daily direct from the local fishing boats. Every morning the fresh bread is delivered from the traditional village bakery.

Most vegetables are grown in our own garden and meals are all prepared with traditional recipes. They can be accompanied by the excellent wines of Samos wine Union and local ouzo with Greek music and entertainment by the sea.

We have operated since 1986 and most of our customers come almost every year and we now consider them as our friends. We are waiting to welcome you with a warm smile and are always available to help you have a memorable visit to our lovely Island.

The only sure thing is that if you come once it won't be the last!
