## About Us

"If one way be better than another, you may be sure it is nature's way." - Aristotle

### Our products are Natural and Certified Organic

**Best Flavors** uses only natural ingredients in every product. We are an environmentally responsible company. Many of you are striving to lead a more natural lifestyle and we support you in that by offering only natural products. A natural product is produced by a living organism meaning you will find it in nature without the addition of any artificial ingredients. We are partners with you to help preserve our earth and environment in every way possible. Our products are pesticide, herbicide and insecticide free. We use only the highest grade of nature's products with no chemicals or synthetics added. Our value to cost is exceptional. You will find you use less of our products because of the high intensity of flavor and quality of the ingredients. We also cater to those who have additional needs and desires such as vegetarian or vegan lifestyles. Some may have dietary restraints such as food allergies. Therefore, we carry alternatives to our regular products including organic, vegan, kosher, gluten-free, sugar free and diacetyl free.

### Best Flavors Products are made Fresh

We are here to provide natural and organic product needs for your family and home. We make our products fresh using only the finest quality ingredients for every item that comes from nature. For instance, we pride ourselves on our superior coffee. Coffee drinkers are very serious about their coffee and we are too! We hand-select our coffee beans based on grower history, attitude and accountability from reliable certifiers. Most of our carefully selected growers are registered with the Rain Forest Alliance Co-Op. **Best Flavors** actively seeks out coffee beans grown and purchased under fair-trade conditions. We buy directly from the Co-Op, making our beans the freshest on the market and the best priced. The majority of our coffee beans are shade-grown which further seals in their freshness. We have regular, decaffeinated, organic, whole beans, ground, and flavored. We roast, flavor and grind (if you wish) our coffee beans when you place your order. This assures you the freshest cup of coffee possible.

Not only is our coffee freshly made, but all of our products are made fresh which is why we have a 3-5 day shipping framework set up. Some products may take a bit longer in production time, so we add time into the shipping time for the finished product. It's freshness you won't receive when you buy from a market's shelf. Those products may say fresh, but the likelihood of their sitting on the shelf for an extended period of time is high. They cannot compete with our freshness guarantee!

### About our CEO Bill Sabo - The Flavor Guy

Best Flavors is owned by Natures Flavors, Inc. CEO of **Nature's Flavors**, Bill Sabo's interest in flavors began over 35 years ago. Through teaching from his uncle and grandfather and years of trial and error, his continuing education about nature, and a concern for the environment, he formed Nature's Flavors. Bill is known as **The Flavor Guy**, the trademarked title he has earned because of the respect for his flavor expertise. Bill travels extensively throughout the world seeking to discover

the best natural ingredients to use in our products. He spends a great deal of time in the exploration of foreign lands seeking to unearth the best of the earth's bounty. He learns directly from the growers, adding to his expanding treasury of knowledge. We keep an extensive library of ingredients for production to which Bill is constantly adding new and innovative items found on his journeys

#### If need a product you cant find , let us know

If you need a product and don't find it on our website, let us know so we can work with you to develop what you desire. We have a full service Research and Development Team you can consult with to formulate any flavor you need. We will assure that your product development will be overseen by Bill Sabo himself along with his Team under strict laboratory conditions that will meet and exceed your expectations. If you would like to schedule a private consultation with Bill, that can be arranged for a nominal fee. You will be happy and satisfied with the end result and will be able to reorder your specific product again once it has been formulated.

At Best Flavors, it is our mission to spread the Natural and Organic bounty of nature through our products.
