## Shipping & Delivery

### Shipping Costs

Orders placed after 2:00pm Pacific Time will be processed the following business day. Products typically leave our facility 3-5 business days after the order has been placed. Our processing time varies simply because each product is made fresh to order. Please keep in mind the time it takes for products to leave our facility and arrive at your doorstep. We use FedEx for most domestic shipping. International shipments and orders being delivered to PO Boxes are shipped using USPS. For all business accounts, we require a processing time of two weeks because processing for business accounts can be a more detailed process.

### Free Shipping Promotions

Free shipping promotion for Best Flavors includes every item on our website with exclusion of: natural syrups, organic syrups, sugar-free syrup powder formulas, and shake & smoothie bases. Free shipping does not apply to Alaska, Hawaii, and countries outside the United States.

### Free Shipping for Delayed Orders

All Best Flavors products are made fresh to order and, at times, the flavor creation process may take longer than expected.

### Domestic Orders

Shipping within the 48 contiguous states is calculated through FedEx or USPS, appropriately. Orders shipping to Alaska and Hawaii are subject to additional shipping costs.

### International Orders

International shipping is calculated through USPS. All international orders are subject to additional shipping costs. The shipping charges will be calculated based on weight as well as destination. A customer service representative will contact you shortly after your order has been placed.
