### Shipping & Delivery

#### Shipping Costs

Orders typically leave our facility 3-5 business days after the order is placed. Our processing time is long because each product is made to order, meaning you get the freshest product possible. Please keep in mind the additional transit time for your product to arrive once we ship it when estimating your order's arrival date. We use UPS for most domestic shipping. International shipments, and orders being delivered to P.O. Boxes are shipped USPS. For all business accounts we require a two week processing time. The reason for a longer wait time on business accounts is due to the fact that the order processing for business accounts is a much more detailed process.

#### Domestic orders \$75 and less

For orders \$75 and less, shipping within the 48 contiguous states is calculated through UPS. Orders shipping to Alaska and Hawaii are subject to additional shipping costs.

#### Domestic orders over \$75

All orders over \$75 are subject to additional shipping charges. After your order is placed, a customer service representative will contact you if additional shipping charges are necessary.

#### International Orders

All international orders are subject to additional shipping costs. The shipping charges will be calculated based on weight and destination. A customer service representative will contact you shortly after your order is placed via email.
