Hello Sir/Medam.we have own land from my father's father. An electric pole was installed from the middle of the polt which supplies electricity to the recidents living behind the plot.so being the owner.i want shift the pole.its my humble request to provide me the legal procedures that should be followed for the removal.

The shifting of the pole may be too much cumbersome as you need to convince the Court that unless the pole is shifted to a different location, you would suffer irreparable loss. Not to forget that the installation of the electricity pole is coincided with the growth and development of the society.

You may take the plea of getting compensation.
