Maison de la Magie: enter a world of illusions

The Maison de la Magie, a spectacle, museum and interactive site on the Magic arts, is full of surprises!

Before entering the house, you will see at the windows the 6-headed dragon, guardian of the magic temple. You can then discover the magic arts in an area of over 2,000 m² on 5 floors: robots, optical games, grand illusions, history of magic, the life and work of Robert Houdin, theatre of Fantasy evenings, with entertainment and magicians, the hallucinoscope devised and created by Gérard Majax, not forgetting a wonderful magic show that combines grand illusions and magic tricks!

The Maison de la Magie also includes:

- Introductory workshops for children and families, as well as school parties;
- Initiation in practical magic tricks;
- A Magic Arts training centre, linked to the C.I.P.I. (Centre International de la Prestidigitation et de l'illusion - International Prestidigitation and Illusion Centre);
- Different magic shows throughout the year.
