Address: Room 242, School of Computer Science, University of Birmingham, Edgbaston, UK

I received my bachelor and master degrees in mechanical engineering at Amirkabir University of Technology (2004) and Sharif University of Technology (2006), respectively. Currently, I am a PhD candidate at the Australian National University, Canberra, Australia. I am working under supervision of [Dr. Roy Featherstone](#) to design control algorithms for balancing and hopping motions of under-actuated robots.
