# CHRISTINE WELLS

**Professor Christine Wells is the Stem Cells Australia Deputy Program Leader.**

Professor Christine Wells

Professor Christine Wells will bring the strength of computational biology and synthetic cell systems to Stem Cells Australia.

Christine leads the Stemformatics.org stem cell collaboration resource, which has >7000 users worldwide, and which hosts the largest compendium of curated stem cell data with >300 public stem cell datasets consisting of ~10,000 stem cell samples, used to generate definitive signatures of stem cell subsets and their differentiated progeny.

Christine is also the Director of the University of Melbourne's Centre for Stem Cell Systems.

Want to keep up to date with the latest developments.
