# JABER FIRAS

Pluripotency and Reprogramming [Professor Jose Polo](#)

Jaber completed a Bachelor of Biomedical Science in 2012 at Monash University. During his final undergraduate year, he joined the Reprogramming and Epigenetics laboratory, under the supervision of Jose Polo, and continued there for his Honours and PhD studies. Jaber research interests lies in inducing and controlling cellular plasticity in mouse and human cells. In addition to his research, Jaber tutors part-time at the department of Anatomy and Developmental Biology at Monash University.

PhD student at Monash University
