# NEWS & EVENTS

## Latest News

[Wound healing corneal stem cells observed in real-time](#)  
**17 December 2018**  
In a study led by Professor Nick Di Girolamo, researchers observed cell growth and movement following a corneal injury in real-time in live animals using minimally invasive microscopy platforms.

[Researchers call for more discussions around modelling early human development](#)  
**14 December 2018**  
In the prestigious research journal 'Nature', researchers Dr Nicolas Rivron, Professor Martin Pera and colleagues, including Associate Professor Megan Munsie, urge that international discussion about the ethical considerations must guide this research.

[International collaboration to advance medical technologies and treatments for patients in Australia](#)  
**14 December 2018**  
Stem Cells Australia, the Canadian-based Centre for Commercialization of Regenerative Medicine (CCRM) and CCRM Australia have agreed to collaborate to advance the field of regenerative medicine and cell and gene therapies in Australia, signing a three-way Memorandum of Understanding (MOU) following the recent AusBiotech National Conference in Brisbane, Australia

## Events

[The NIH PCTC Cardiovascular Bioengineering Symposium](#)  
**01 March 2019**  
This two day meeting will bring together a faculty of internationally leading scientists from North America, Europe, USA, Asia and Australia. We will cover a spectrum of fundamental and translational topics related to the fields of cardiac cell therapy, cardiovascular sciences, bioengineering and stem cell biology.

[ISCT 2019 Conference](#)  
**29 May 2019**

The 2019 program features state-of-the-art plenary sessions that include immunotherapy, tissue engineering, pluripotent stem cells, mesenchymal stem cells and a session focused on novel technologies.
