ACCELERATED RESEARCH PROGRAM

Translating stem cells towards unmet clinical needs

Stem Cells Australia received an additional **\$3 million** from the Australian Government's "Accelerated Research program" of the Medical Research Future Fund, [towards two disease team projects](#).

The Accelerated Research program of the Medical Research Future Fund grant will be used to support national teams of experts to take stem cell research from the laboratory into the clinic.

Stem Cells Australia is now accepting [applications for disease teams](#) seeking support for translational research using stem cells.
