

Sandy Cove, St. James, Barbados

Description Key

Description

Sheltered by an unspoiled reef, lapped by the sparkling Caribbean, fringed with tamarind and mahogany trees, this is Sandy Cove; a private community of luxurious apartments, penthouses and villas with inspiring ocean views, soft sandy beaches and lush tropical gardens. Sandy Cove consists of 12 spacious apartments. Each has a plunge pool, ocean facing patio, master bedroom suite and two further bedrooms with en-suite bathrooms. Three sumptuous penthouses crown the development with breathtaking vistas across the cove. All penthouse living rooms and bedrooms open onto patios and sundecks, allowing the fresh tradewinds to air the rooms. There is ample space to entertain or simply relax in the jacuzzi and full-size pool.

Designed by architects Gillespie & Steel in classic Colonial Style, all homes are air-conditioned with well equipped kitchens and laundry rooms. The development also has a private gym and sauna, secure parking, state-of-the-art communications network and on-site maintenance staff.
