Short description

NetVu Ltd is an innovative technology and video surveillance industry pioneer. It provides tailored high-end secure IP video solutions for clients that demand systems that deliver great effectiveness, reliability and return on investment.

FireVu is a cornerstone product in the NetVu portfolio. FireVu provides very early detection of smoke, flame and heat together with situational awareness to enable companies to take quick action to mitigate the potentially devastating effects of fire destruction.

FireVu was first developed over 10 years ago and since then it has been repeatedly refined and enhanced so that today it also includes patented flame detection and has a security provision that can be combined in the client's system.

FireVu is currently used on more than 200 sites globally, including power generation, manufacturing industries, tunnels, aircraft hangars and many other sectors where time is of the essence when responding to fire.

Information

NetVu Ltd develops, sells, supports and warrants Dedicated Micros, FireVu and TransVu products in the UK and
