Our Vision

Swings2Wings is an initiative that will bring forth a positive change in the school of knowledge and learning by following a holistic approach which is different from the regular monotonous ways of pre-school learning. We strive to bring the language of Sanskrit in daily life for mind, body and soul development of our children.

Our Mission

Our ultimate goal is to encourage our children to observe more, interact more, to question, explore, investigate and acquire skills that will make them learners for life.
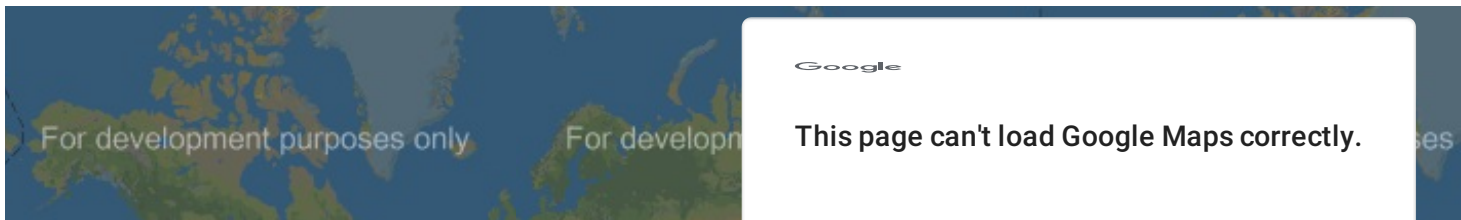

Hence our curriculum is essentially based on pure Montessori philosophy and applying Sanskrit approach in daily life. Learning conversational Sanskrit sessions will give an opportunity in adapting a positive spiritual life style.

Our children will learn about the social and emotional skills, such as empathy, listening, and self-regulation and self-discipline, which really help children, thrive once they start their formal school education.
