## Business Description

Being the manufacturer of the most trusted engineered building in India, we are affianced in manufacturing and supplying an extensive range of Pre Engineered Buildings. It is highly acclaimed by clients for use warehouses and industrial production units. It is designed by using best quality steel at our technically advanced manufacturing unit by maintaining the industry laid quality standards. Pre Engineered Buildings is available in the market at a pocket-friendly price.

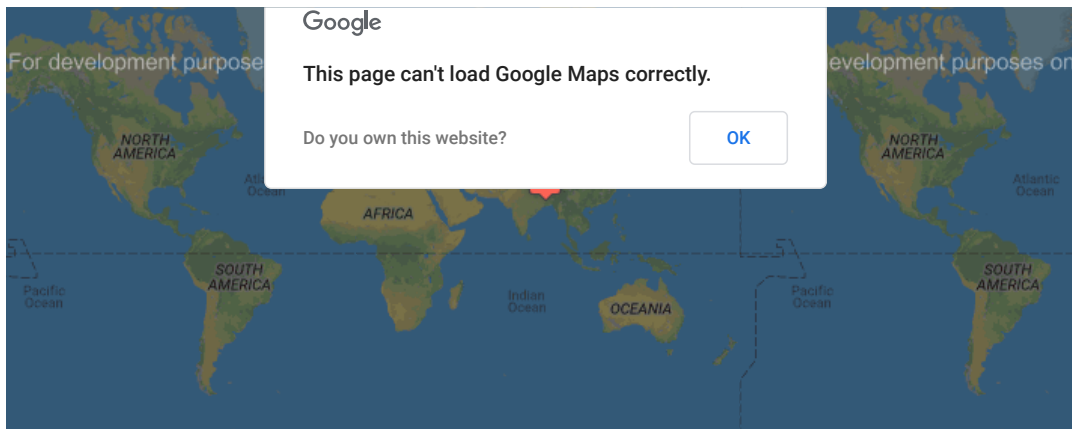

It is one of the lightweight building systems that is used on the roof-top mostly in residential houses, small sheds, hospitals, schools, offices, and other such places. The steel sections from which these sheds are made of are pre-galvanized to make it durable, strong and fire resistant.
