Business Description

MICROSUPERSONICS-Ultrasonic cleaning machines,Ultrasonic Cleaning Equipments,Ultrasonic Cleaning Systems,ultrasonic welding machine,ultrasonic plastic welding machine,ultrasonic eyelet machine,ultrasonic tube sealing machine,Ultrasonic Industrial Cleaner,Ultrasonic Spot Welding Machines Manufacturers and Suppliers in Bangalore.

We introduce ourselves as a group of Engineers engaged in the manufacture of range of Ultrasonic Machines in Bangalore.

We have developed sophisticated Ultrasonic Cleaning machines, Ultrasonic Plastic Welding machines and Ultrasonic Drilling & Polishing Machines for various applications. The Brief detail is as follows

Ultrasonic Cleaners are faster, more efficient, more consistent and safer than any other Cleaning method. Ultrasonic Cleaning is used in wide range of applications such as

- 1.Electronic Industry for PCB's and other delicate Electronic Parts.
2. Jewellery Industry for intricate parts.
3. Medical & Laboratory for Cleaning, mixing & Homogenization.
4. Auto Industry for Machined parts, Pump parts, Nozzles, Bearings etc.
5. Aero space Industries for machined components & parts

MSSonics has addressed every conceivable cleaning and parts Cleaning & washing application, from simple oil, chip, coolant removal, complex metal parts, cleaning molds, disk drive components and photonic optical components to absolute zero-residue results.

Our products are of State of Art technology. We have achieved our quality standards with consistent efforts and dedication. All the items are vigilantly checked, before final selection. Regular updates are taken regarding the progress of the products. Ultrasonic Cleaners

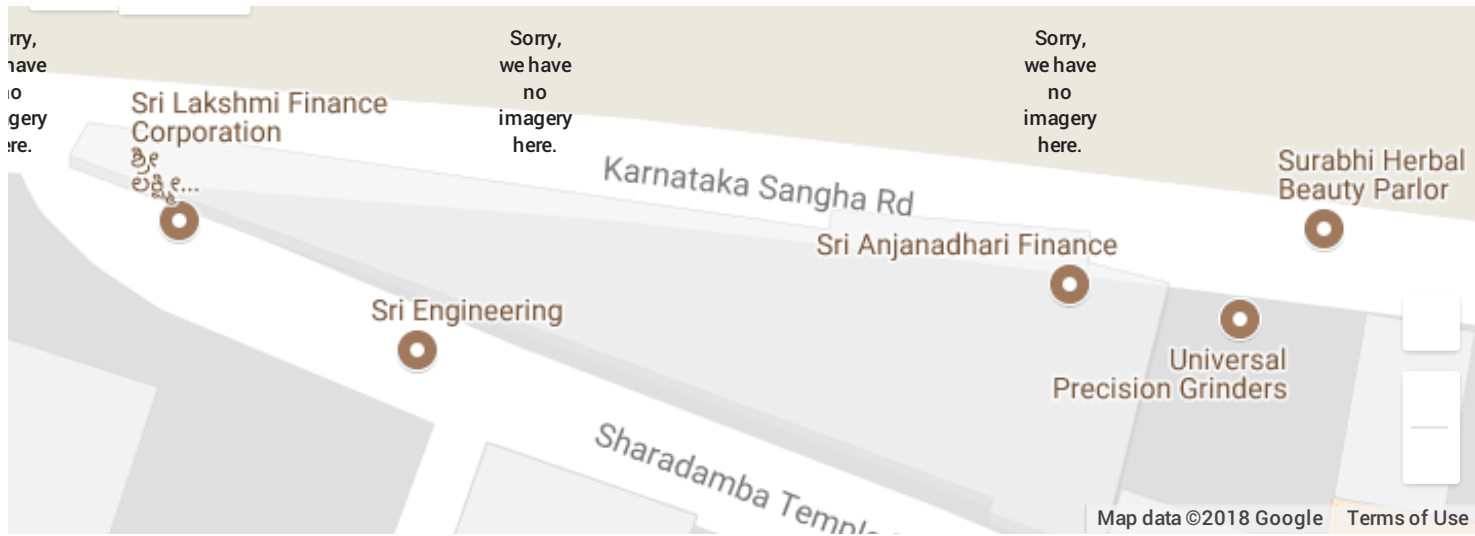

We manufacture Ultrasonic Cleaners that are fast to operate and are highly consistent when it comes to performance. When compared to other cleaning products involving ultrasonic cleaning process, the ultrasonic cleaners we manufacture are much safer. With these products, we ensure high durability and potential functional capacity.
