

## Scuba Diving Courses with European Diving

We make learning to Scuba Dive easy in Milan through flexible schedules and small classes. We set the time schedule according to your needs and take away the worry of purchasing or renting equipment. We are a group of nature lovers, explorers and worldwide travellers who are also passionate about teaching people to scuba dive. When you dive with us, you are completely supported by [our instructors](#) within an indoor environment designed for learning scuba diving as well as in outstandingly beautiful outdoor environments. We offer a wide range of [courses](#), from the initial courses ([PADI Open Water Diver and PADI Advanced Open Water Diver](#)), to the progressive courses ([PADI Rescue Diver and PADI Deep Diver](#)) and right through to the professional ones (PADI Divemaster and PADI Open Water Scuba Instructor), DSAT Tec Courses and PADI Specialty Courses.

### An approach in line with modern time

Modern teaching techniques make large use of multimedia. With European Diving you will have the option to choose traditional multimedia (manual and DVD) or to utilize e-learning for the knowledge development part of the courses. We understand time is a constraint, so we give you the opportunity to do the self-learning part to suit you, and then help you plan the in-water lessons at a convenient time. Our training is based on the use of scuba diving computers and we supply Cressi Archimede II diving computers to our Open Water students.
