Professional Computer Services (PCs)

We aim to be approachable, affordable, understanding and capable in all areas of internet, design, print and media work that you may require.

We can draw upon many years of experience in a diverse range of businesses, working online since 1997

We take the time to listen to you, and understand your business.

We deal with all manner of things for businesses, community groups, statutory organisations, hobby groups and individuals.

We do Website Design and Hosting, including ecommerce shopping, information sites, Social Media – Facebook, Twitter etc, Search Engine Optimization (SEO)

We do logos, graphics, video, photos, CDs and DVDs

We design and print goods, from letterheads to pens, leaflets to banners.

We set up and manage online networks and forums, and as with our websites, can provide an on-going service to administer them, or we can train the customer to be able to manage them via a content management system (CMS)

We offer practical advice and help on branding, creating an image and internet and real-world presence.

We do event planning and management.

Please do not hesitate to [contact us](#) for any enquiries about how we can help you.

End to End Solutions

We are a digital agency offering an end to end service of branding, web development and marketing. This saves you from the hassle of working with and managing several different entities. We build your websites, engage in internet marketing campaigns and maintain and support your websites on a regular basis.

Sensible Pricing

Our rates are sensible and we offer true value for money. We are flexible to meet your timescales and fit your budgets. Whether you're looking for a simple 5 page micro website / brochure web design or a large complex web development, we can promise to offer you excellent service at affordable prices.

Strategy and Goal Driven Approach

We take time to understand your business; this enables us to create an effective online strategy for your website.

Long Term Partnerships

We act as your partner and share your passion about your business. We have built long-term relationships with our web design clients, it's not a coincidence that most of our business comes from referrals from existing clients.

Search Engine Friendly Web Design

We are also able to look at your existing websites and suggest strategies for on and off-site Search Engine Optimisation SEO

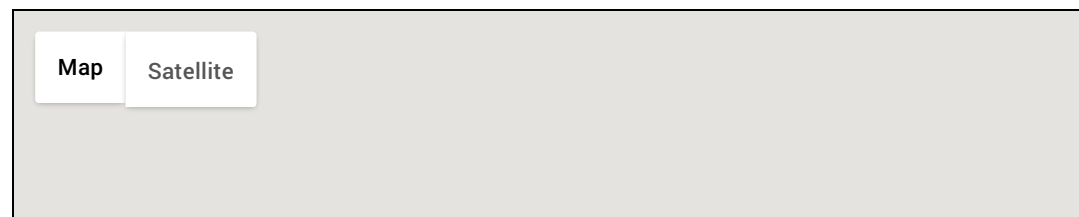

Our web design projects are search engine friendly and standards compliant.

We are friendly and we offer true value for money. We are flexible to meet your timescales and fit your budgets.
