support verdecoprente

VERDECOPRENTE is a project conceived with the objective to promote contemporary theatre, performance, visual arts and expressive languages in the Umbrian area of Amelia and fostering their capacity to nurture the and to be nurtured by the relation between places, spaces, people and the rythms of tradition and local culture. It is a project moving in an ambience of interrelated and collaborating communities which share ist idea and modality: Alviano, Amelia, Giove, Guardea, Lugnano in Teverina e Montecchio.

As in previous years such as in 2016, the project focusses on artists and companies in residence based in Italy and in foreign countries who were selected via a call for proposals aiming at the professional scene of contemporary arts.

The project is evolving by the year affirming the value of a venue that succeeds in involving artists citizens, companies, entrepreneurship as well as volunteers, passion and professionalism, Italy and foreign countries alike in a network channelling and redistributing sustainable resources as well as diverse forms of concrete and specific collaboration that create new synergies. Thanks to co-financing by private and public promoters the essential contributios are sourced through our network and fundraising. Verdecoprente, a local cultural project is nurtured by a collective and conscious vision that we share. Thus it constitutes an innovative model of a private-public
