a candidate gets 3 exemptions in 3 papers and in 4th paper he gets suppose 25 or 30 out of 100 . Then what is the scenario of that candidate in the group.

Considering the candidate gives only 1 group

It would be better if you share your marks however if a candidate has 3 exemptions which he got in the same attempt then he is required to pass in the paper left since passing in that subject itself will take care of aggregate marks
