Hi

I found this post really inspiring. This is the most realistic thought which can form the basis for working hard for the upcoming exams and reminds the goal with which any real CA aspirant starts his journey. Thank you very much.

Sir,

Good work. Good Ideals.

But what people ask you is whether you are a CA or not...

Just have a look of what some companies demand

" ONLY RANK HOLDERS OR FIRST ATTEMPT"

Then where do people like me stand now and for what ideals are we talking about. The World knows what the auditor does to defend his client by all unethical and illegal means. Then what standard are we talking about?
