 **Subramanya** (Tax Consultant) 29 July 2010

Remote Access and SMS is available in Tally.ERP 9 Rel 2.0 Beta version

Remote Access :

Create/Alter Masters and Transactions, and view Reports without any barriers, intrusions or interference over the Trusted Remote, while people involved with the business are physically away from the business location. All this happens when the company remains connected to Tally.NET.

SMS :

Using a mobile device, the business owner communicates with simple English (known as Natural Language) via SMS (Short Message Service) to the company connected to Tally.NET and get the required info like Stock in hand, Bank Balance, Outstandings etc.,

One can download Beta version from <http://www.tallysolutions.com/website/html/TallyDownload/TallyERP9BetaVer.html>

With Regards,

Agarwal

Remote edit is a much awaited feature of Tally.ERP9 and will surely help multi-locational business. This is very much required if Tally wants to call itself a true realtime ERP application.

The SMS service provided by Tally though has a much limited functionality as it only allows user to pull information from Tally when he is away from office. It does not allow users to send SMS from tally related to business information to the owners and clients.

To send SMS from Tally there is a software (Tally Plugin) called Tally Messenger. (www.TallyMessenger.com)

Hi

Suppose if want to access my Company data at home is it possible ?

Subramanya

Subramanya (Tax Consultant) [02 August 2010](#)

Yes Mr.Subramanya

Connect your Company to Tally.NET, goto Home (even browsing centre). From Educational version of Tally.ERP 9 you can access your company live data.

Hi,

Remote Edit feature is released by Tally Solutions.

You can download the same from the website tallysolutions.com

<http://experts.tallysolutions.com/tallyweb/modules/operation/extranet/CXERPDownloadViewMgr.php>

Features :

- 1) One Single user : You can logon to the same company remotely (through Internet) and work as a normal Tally user from Remote
- 2) One Multi user : 10 Active users can logon to the same company Remotely (through Internet) and work as a normal Tally user from Remote.

Hi!

Remote Desktop Connection

Remote access can be taken by a tally user from a remote location i.e away from the system where the License is. This will help to view the entries made from a remote location. This is a default feature in Tally but is available only when the Tally (Tally. Net Subscription) is valid.

SMS Module

SMS can now be sent from Tally. Get it for free along with 100 SMS free from here: <https://www.antraweb.com/product/tally-sms-module> If you wish to know more about SMS Module, You can drop a mail at [info @ antraweb.com](mailto:info@antraweb.com) or call us at +91 8448449099

Hello!

Remote Desktop Connection in Tally is available only when the (Tally. Net Subscriptttttion) is valid.

There are SMS Plugins available which can let you send sms from your Tally Erp 9. I am using from one of the portal <http://tally-sms.com/> and it is very useful. Also there sms rates are cheaper compared to any other Tally Modules. They got several functionality like Sales sms, Outstanding sms, Excel Sms, birthday sms, anniversary sms, payment sms, etc directly form Tally erp 9.
