Description:

The Pinnacles, two hours north of Perth, are an easily accessible natural wonder waiting to be explored. Next to the town of Cervantes and located within the desert landscape of Nambung National Park, the Pinnacles are fascinating limestone formations up to four metres high that were derived from seashells thousands of years ago. The Pinnacles themselves are a must-see natural wonder on any trip to Perth. Include a visit to a beautiful beach, Yanchep National Park to see koalas, sandboarding on Lancelin's amazing dunes and lunch at the impressive Lobster Shack and this tour is a great day out for all the family.
