Curriculum

The courses provide English language tuition, through summer schools, with an additional focus on developing leadership skills. There are two types of courses. One is for young people, aged 10 to 18, entitled Future Leaders Summer Camp. The other course is for young adults, aged 19 to 25, called Unileaders Adult Summer Camp. Both camps are for two weeks and will run throughout the summer.

Common to both courses is a programme of 30 hours' English tuition, which covers speaking, reading and writing skills. The English course includes research projects, which will need to be presented back to the groups. Each course includes 20 hours of a chosen sport or activity designed to encourage team building and leadership skills, along with three full-day excursions. In addition, the Future Leaders course includes courses in etiquette and entrepreneurship.
