Grady's Ambulatory Surgery Clinic is a one-stop outpatient surgical center. Outpatient surgery - surgery that does not require a hospital stay - has emerged as a safe, convenient, and cost-effective alternative to inpatient surgery. Your surgeon will refer you to the Ambulatory Surgery Clinic for all your pre-operative testing and pre-surgery anesthesia consult.

On the day of surgery, your family may stay with you in the clinic's Pre-Op Area until staff takes you to the Operating Room. The nurse will give your family a patient tracking number and show them where to wait during your surgery.
