

Burn Center

80 Jesse Hill Jr Drive SE Atlanta, GA 30303 | (404) 616-BURN | *24 hours a day; seven days a week*

The Grady Burn Center is one of the largest in the country. We provide complete care to burn victims of all ages. We treat burns that result from flames, scalds, chemical and electrical accidents. We are the only burn center in Georgia backed by a Level I trauma center. We also provide the majority of the pediatric burn care in all of Georgia.

Patients suffering from traumatic burns are cared for in the center's Intensive Care Unit until stable. Beyond critical care, the Burn Center offers outpatient services for minor burns and follow-up care for wounds and major burns.

Our Burn Center includes:

- Newly appointed private rooms, including 23 Intensive and Intermediate Care beds. Our critical care beds are equipped with a zoned air surface that adjusts to the patient's weight distribution, reduces body pressure and minimizes skin and tissue damage.
- Specially designed hydrotherapy tables provide highly regulated temperature and pressure controls, so even the most critically injured patients can be bathed and receive wound care in a safe, hygienic manner.
- Dedicated rehabilitation gym where patients receive physical and occupational therapy to help them reintegrate to home, work, school and their community.
- Convenient Outpatient Center available for follow-up care. (Tuesday and Friday only, 8:30 a.m. - 4 p.m.)

The Burn Team

The Burn Center is staffed by a highly qualified team of Emory University School of Medicine surgeons and Grady nurses and therapists certified in critical burn and advanced wound care for adults and children. It is because of our exceptional team of doctors and staff that patients from all over the country choose to receive their

treatment here.

Family-Centered Experience

Visits from family and loved ones are important and help promote healing for both patients and their families. That is why the Grady Burn Center offers **open visitation** for family and friends. Because treatment of a burn patient can be complex, special visitation guidelines may be specified by caregivers to assist in providing our patients with the best possible care. In our spacious Patient and Family Lounge, families and loved ones can relax while patients receive their care.

Resources and amenities available for family and patients include:

- Special lodging rates at select hotels
- Support groups
- Burn survivors' camp for burn-injured children (visit www.gbf.org for more information)
- Family lounge
- Chaplaincy

For Medical Professionals — Trauma Transfers

Transferring trauma, surgical critical care or burn patients to Grady Memorial Hospital's Trauma Center just got a lot easier. If your patient requires the care of a Level I Trauma Center, surgeons are prepared to consult with you and accept your patient. One call is all it takes - 1-866-472-3989 or 1-866-GRADY-TX.

Verified Adult and Pediatric Burn Center

Grady's Burn Center is verified by the American Burn Association and the American College of Surgeons Committee on Trauma as an adult and pediatric burn center - the 'Gold Standard' for high-quality burn care. Grady is also verified by the State of Georgia Department of Public Health.
