

Cardiac Clinic

80 Jesse Hill Jr Drive SE Atlanta, GA 30303 | (404) 616-4422 | *Monday - Friday 8 a.m. to 4:30 p.m.*

Grady's Cardiac Clinic provides comprehensive care for all types of cardiac conditions and diseases. Our multidisciplinary team of cardiologists, cardiothoracic surgeons, and other highly trained clinicians treat coronary artery disease, heart rhythm disturbances such as atrial fibrillation, heart failure, and adult congenital heart disease.

In order to maintain heart health, Grady offers these additional cardiac services:

- Cardiac Catheterization Laboratory — During cardiac catheterization, Grady physicians use digital images to identify narrowing or blockage in the arteries.
- Cardiac Rehabilitation Program — The Cardiac Rehabilitation Program provides patients with exercise and wellness education. They encourage patients to make lifestyle changes to reduce their risk factors for heart disease.
- Anticoagulation Clinic — In Grady's Anticoagulation Clinic, staff provide personalized anticoagulation management for people on anti-clotting medications. These regular checks - allow us to adjust your medications to keep you well.

What We Treat

Cardiac arrhythmia, congenital heart disease, heart failure, coronary artery disease program, atrial fibrillation, thrombophlebitis, hypertrophic cardiomyopathy, hypertension, and high cholesterol
