8x8

8x8 Named a Gartner Magic Quadrant Leader for UCaaS

6 Years in a Row

GET THE REPORT

Gartner

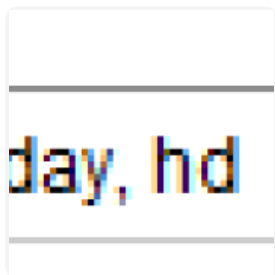

Summary
8x8 is now a viable alternative for many (not all) enterprise deployments. 8x8 provides a robust set of project management, an expanded set of apps, and the ability to deploy a number of other UCaaS services.

Market Definition/Description
This document was revised on 30 August 2016. The document you are viewing is the current version of the report.

Market Definition/Description
Unified communications as a service (UCaaS) supports the same functions as its traditional on-premise counterpart, but with the added benefit of being hosted in the cloud. UCaaS services include:

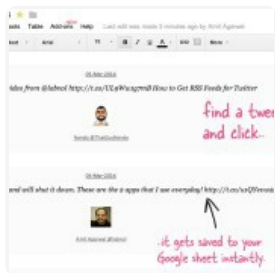

- Voice and messaging, including mobility support
- Conferencing – audio/conferencing, videoconferencing, and web conferencing
- Messaging – email, self-service, and web-based messaging (IM)
- Presence and instant messaging (IM)
- Client – including desktop clients and thin-client clients
- Communications-enabled applications – for example, integrated collaboration and customer relationship management (CRM)
- Communications-enabled applications are in the UCaaS market. The key to making the most of cloud delivery applications is to make sure customer readiness is high.
