## ABOUT CLICK

 Like 309

Association of Water and Energy Research Malaysia (AWER) has conducted series of passive, active and interactive consultations on the Low Carbon Lifestyle with various stakeholders. The findings of the studies were carefully researched and matched with short term and long term plans. This implementation model coded **3C50** is a detailed planning developed by AWER to assist Malaysia in achieving Low Carbon Lifestyle.

To lead a low carbon lifestyle, all members of public and businesses need tools and assistance. AWER brings forth CLICK to Low Carbon Lifestyle, an online platform for Malaysians to make sustainable steps easier.

We thank British High Commission, Kuala Lumpur and the UK Government in supporting our first part of the 3C50 implementation.
