[Electrical Engineering and Computer Science](#)

[Affiliation information](#)

Employment

12/2010 —

[United States Navy](#) Information Warfare Community

[Cryptologic Warfare Officer \(1815\)](#)

Information Warfare Officer, Space and Electronic Warfare Officer, Tactical Information Operations Officer

Execute Cryptologic Warfare, which encompasses Signals Intelligence (SIGINT), Cyberspace Operations (CO), and Electronic Warfare (EW) Operations in order to deliver effects through sea, air, land, space, and cyber domains at all levels of war.

Previous assignments

SEAL TEAM EIGHTEEN

Command Cryptologist and Information Warfare Operations Officer

Naval Special Warfare Development Group

Signals Intelligence (SIGINT) Mission Manager

Navy Information Operations Command Georgia–Great Lakes

Operations Officer and Cyberspace Operations (CO) SME

[United States Intelligence Community](#)

Intelligence Professional

Subject matter expert in Cyberspace Operations (CO), Signals Intelligence (SIGINT), and space policy, systems, and operations. As an intelligence professional, collect and convey the essential information the President and members of the policymaking, law enforcement, and military communities require to execute their appointed duties.

05/1995 —

[University of Wisconsin–Madison](#) [Division of Information Technology \(DoIT\)](#), Madison, WI

Information Technology Strategist and Cyber Subject Matter Expert

[Enterprise Internet Services](#) (EIS) Wisconsin State Government; see [Wis. Stats. 230.08 \(3\) \(a\)](#)

Responsible for the strategic oversight and project management of the [Mobile UW](#) (Wisconsin app) initiative and functions within DoIT, which provide mobile applications development, production, and support to the UW–Madison campus. In conjunction with DoIT and the UW–Madison Relations & Communications office, lead the project management of the Mobile UW initiative and act as backup for campus-wide Mobile UW committee responsibilities in the absence of the Chief Operating Officer (COO).

Serves as the primary campus resource for the research, development, and application of new mobile technologies in support of UW–Madison's overall mission and future mobile initiatives. This encompasses the emergence of communication technologies (i.e., mobile applications, social media), and promotes on-demand access to content anytime and anywhere on any digital mobile device, as well as interactive user feedback, participation, and community formation around mobile content.

Previous assignments

COOP Architect

Responsible for Continuity of Operations (COOP) analysis and planning for critical cross-platform IT infrastructure, networks, and services within the UW–Madison enterprise data centers across two sites. This work involves providing leadership to technical teams, as well as interaction with executive management, commercial vendors, other divisions and departments, government agencies, and the general public.

Duty Technologist

On–call position requiring comprehensive technical and organizational knowledge, which supports incident management, operations, and recovery during and after events that negatively impact enterprise IT services.

Emergency Management Officer

Information Management staff for UW–Madison Emergency Operations Center (EOC), responsible for exercise planning and reliable information flow among EOC components, campus departments, law enforcement, state agencies, and other stakeholders.

Experience

- Comprehensive experience in academic and government enterprise IT environments
- Cyber and signals intelligence (SIGINT) policy, systems, and operations
- Mobile technologies and mobile development
- Internet and networking standards and protocols
- Wireless communications and networking
- Emergency Management (EM)
- Knowledge Management (KM)
- Collaboration tools and social software
- Social software applications in government
- Intelligence Collection Management (CM)
- Information Assurance Manager (IAM)
- Project management
- Public speaking and presentation
- Presentation for courses and conferences
- Technical consulting, writing, and documentation
- Team leadership of diverse groups
- Continuity of operations (COOP) planning
- Incident Command System (ICS) (FEMA-certified)
- ITIL 2011 Foundation (certified)
- National Incident Management System (NIMS)
- Information Warfare (IW)/Information Operations (IO)
- Joint IO, MILDEC, and OPSEC-qualified
