Orders may be held for reasons including, but not limited to, inaccessible destination address, incorrect contact information or an insufficient address. Each order may only have one "ship to" address. If you require multiple "ship to" addresses, please order separately for each address. Minimum order and freight policies will apply to each order. Orders may not be combined to meet minimum order or free freight thresholds.

Shipping Locations

Stock orders ship from our manufacturing/ facility located in Ontario, California. Shipping charges are automatically calculated using our facility as the point of origin. We reserve the right to ship certain products or orders directly to a customer from the manufacturer. In these cases, freight costs, if any, will be calculated using the manufacturer as the point of origin.

International Shipping

SHIPPING METHODS & COSTS

Shipping Methods

BearSaver ships orders to both commercial and residential addresses. Commercial addresses are defined as business addresses situated on commercially zoned real estate, as determined by the freight carrier. Businesses operated from a house, apartment or other dwelling are not considered commercial addresses and will be charged any applicable residential delivery fees.

Calculating Shipping Costs

When placing your order, you may choose from several methods of shipment and you will be able to select the method and pricing that best fits your needs. You will see the associated costs for the method you select in your shopping cart. Please note that shipping costs may also depend on the terms of your Securr account.

Special Note on Common Carrier Deliveries

LTL Common Carrier delivery requires an adult signature at the time of delivery. It is that adult's responsibility to inspect the merchandise being delivered for damage or shortage. By signing for a shipment without notice of damage or shortage, you are accepting the product in good condition. Once the driver leaves with your signature, your ability to claim damage or shortage against the carrier is significantly reduced. Most claims against a carrier are denied if they have a free and clear delivery signature.

It is also the responsibility of the Customer to have adequate help and any necessary equipment to receive product at the back of the delivery vehicle.

Please be advised that Securr does not ship orders C. O. D.

DELIVERY ESTIMATES

Delivery Lead Time Estimates

Your estimated arrival date is determined by the date of shipment from our facility and the shipping method you select at the time of checkout. Most In-Stock orders are shipped within one (1) week of receiving an order.

Shipments travel on normal business days. Please take into account federal holidays and possible inclement weather when placing your order. We will make every effort to deliver your order on the requested date.

Delivery Time Confirmation

Once your order has been submitted, a confirmation email will be sent to you, which will include shipping and delivery lead time estimates. These estimates will also appear under "My Account".

DAMAGE & CANCELLATION

Incorrect or Damaged Orders

We make every effort to correctly fill and securely pack each order. If your products arrive damaged, or if you receive an incomplete or incorrect shipment, make a notation on the Bill of Lading and/or with the driver at time of delivery. We are not responsible for damaged items that are accepted and signed for at time of delivery without notation.

All reports of damage should immediately be reported to BearSaver Customer Service Team at 1-800-851-3887. All requests for return may be made up to the 30th day after receipt of shipment. Securr will arrange for return shipping to the distribution center for an item that was sent to you in error, received defective, or that arrived damaged.
