"Alani has certainly added elegance to our guest dining and the lighter weight has made for much easier handling for our staff. The collection has upgraded our china presentation, making it much more appealing to guests and easier in service. The sophisticated styling, strength and purity of color are what make this line attractive. I would recommend Alani to other industry professionals as a solid product that they can depend on!"

" First and foremost, the look and quality of the Vista Alegre line is comparative to other expensive name brands. While it's harder and harder to make money in this business, we as operators can manage our bottom line better. The value is very competitive, making it a simple choice. It's easy to construct my food on great looking dinnerware. I don't have to work as hard to make the food attractive when using Vista Alegre. The plate helps me achieve this. "

Jeff Moschetti, Executive Chef | Jasper's Restaurant, Dallas

Crystalex

Exemplary Style Meets Cutting-Edge Design

A distinctive design that stands in a class of its own.

"We recently brought in the Rhapsody and Flamenco styles from the Crystalex collection. The sheer thin rim on the glass makes for a delightful drinking experience and lends itself to a higher end glass. I like the clear color which enhances the presentation of specialty and original martinis. The size of each glass is stylish, and an ideal design for our clientele. The martini glass is a perfect pour from shaker to stem. Our main customer base is female and they especially enjoy the stem length, the amount of the pour and the look of the glass."
