Tech Experience 2018, June 7 & 8 at the Rijtuigenloods – “The Cloud is Next”

Because of great success of last year's conference, NL Oracle User Group has decided to organise the Tech Experience again in 2018; the one and only event covering the entire Oracle Technology Stack.

Previously, the conference existed as two separate events: Fusion Middleware Experience and DBA day. Last year Tech Experience was first organised which resulted in many positive reactions.

The program isn't quite done, but we can give you a hint of what's to come by presenting the already confirmed keynote speakers; Amit Zavery & Penny Avril.

Amit Zavery
Executive Vice President
Oracle Cloud Platform

Penny Avril
Vice President of Product Management
Oracle Database

Tech Experience 2018 will again take place at the industrial Rijtuigenloods (a former car workshop) in Amersfoort. The organisation committee is, as we speak, looking at over 150 submitted papers, so a full program can be expected again combining client presentations and technical presentations by

very interesting speakers, including ACEs & ACE Directors. The conference will cover many subjects, such as the Internet of Things, Database-as-a-Service, Chatbots, Javascript/Angular, Blockchain, Cloud Services, etc.

Each one of these subjects have sessions related to them, from DBA to Cloud and everything in between. Besides that, we are also planning to prepare a few hands on labs, in which you can try out the new Cloud products yourself! Like last year, the tickets are “all-inclusive”, meaning that besides participation in the conference a lunch will be included, you can participate in the evening program and parking is free. Make sure you’ll be there!
