### About me

Member Since : 29 August 2010 (Mumbai)

I am a Chemical Engineer. I have a Ph.D[Tech] in Chemical Engineering from the Department of Chemical Technology of the then Bombay University. I have also a Diploma in Marathi again from Bombay University. I was formerly with BARC. I am now engaged in full time practice of my profession. Law, according to me is a science based on objective logical thinking and analysis. But it becomes an art in the hands of some lawyers, who save established criminals from law for money, fame or both. Law is an art also when it comes to beating Tuglakian Laws.
